10. (Canceled)  
11. (Previously Presented) A compound having one of the following structures:

Application No.: 10/696,048  
Docket No.: PE0649 US DIV6

Page 3

12  
13. (Previously Presented) An electronic device comprising an organic layer comprising at least one Ir(III) compound made from precursor compounds having the structure set forth in Claim 12. 11

13  
14. (Previously Presented) An electronic device comprising a light emitting layer comprising at least one Ir(III) compound made from precursor compounds having the structure set forth in Claim 12. 11

14  
15. (Previously Presented) An electronic device comprising a charge transport layer comprising at least one Ir(III) compound made from precursor compounds having the structure set forth in Claim 12. 11

Application No.: 10/696,048

Docket No.: PE0649 US DIV6

15  
16. (Previously Presented) An electronic device comprising an organic layer comprising at least one Ir(III) compound made from precursor compounds having the following structure.

16  
Claim 17 (Previously Presented) The device of Claim 16, wherein the organic layer is a light-emitting layer.

15  
Claim 18 (Previously Presented) The device of Claim 16, wherein the organic layer is a charge transport layer.
